Collection of Euroclad waste – Licence CBDL1558

In the event that collection of **Euroclad's waste** is required from site, please refer to the following guidelines.

1. Please ensure that the information required for collection of waste product is completed and sent back to Euroclad. Unfortunately, we are unable to proceed with any collection until this information is received.
2. The required amount of dumpy bags will either be delivered by a courier or with a Euroclad delivery vehicle to site within 5 working days of request.
3. If the job is phased, more dumpy bags can be delivered with the vehicle upon the organised collection date, if this is the case, please confirm this prior to the collection date.
4. Once information is received, Euroclad endeavours to organise a collection within 5 working days of required advised date. Euroclad will confirm the collection date.
5. We can only collect waste in Euroclad's issued dumpy bags, if waste is contained in any other bag, Euroclad **will** refuse to collect.
6. Please ensure that all waste is segregated and ready when the vehicle arrives onsite. Euroclad will not wait for waste product to be sorted upon arrival to site; neither will Euroclad collect any other waste not belonging to Euroclad. If this is the case, Euroclad will refuse the collection, and you will be liable for the collection cost. Please note Euroclad are a licensed lower tier waste carrier and therefore cannot remove **ANY** other waste product other than Euroclad's.
7. If waste not belonging to Euroclad is found within the dumpy bags upon arrival, collection will not be possible. If waste not belonging to Euroclad is found hidden within the dumpy bags upon return, a labour/waste cost will be applicable (POA).
8. Materials must be segregated into appropriate dumpy bags: plastic (inc. blue weave packing and film/shrink wrap), timber/cardboard etc. Pallets may not be suitable for dumpy bags, therefore please inform below how many you require collecting so that we can ensure the appropriate amount of bed space on the vehicle is available.
9. The full dumpy bags must be securely tied at the top and stored safely awaiting collection.
10. The amount of dumpy bags that you utilise will be recorded; therefore in the event that the bag/s sent to site are not returned to Euroclad, a charge of £10 per bag is applicable.

Please fill in the following information

Project name & Postcode _____

Collection contact (name and number) _____

Amount of total bags required for collection _____

Date collection is required (Euroclad to confirm actual date) _____

How many dumpy bags are required _____

Please tick below the items you require collected

- | | | | | |
|---|--|---|--|---|
| <input type="checkbox"/> Steel banding wire
(150104) | <input type="checkbox"/> Polystyrene blocks
(150102) | <input type="checkbox"/> Wooden bearers
(150103) | <input type="checkbox"/> Polybean bags
(150105) | <input type="checkbox"/> Mixed metals
(170407) |
| <input type="checkbox"/> Pallets (how many)
(150103) | <input type="checkbox"/> Plastics/Blue Weave
(150102) | <input type="checkbox"/> Insulation
(170604) | <input type="checkbox"/> Cardboard
(150101) | <input type="checkbox"/> Hessian bags
(150105) |

Any other waste material please specify
