

ENVIRONMENTAL POLICY STATEMENT

Euroclad Ltd are specialists in the manufacture of a full range of cladding systems and fittings for the use within the commercial and industrial building sector of the construction industry.

Euroclad Ltd recognises that concerns for the environment should be an integral and fundamental part of its business operations. As a result, Euroclad's aim is to achieve environmental excellence through its ISO14001 certified Environmental Management System.

All significant environmental impacts of the company's operations will be assessed, objectives set and reviewed annually to promote the continual improvement of our environmental performance.

We will promote a sense of responsibility for the environment and ensure that this policy is communicated and implemented at all levels within our organisation. This will allow us to demonstrate a commitment to the protection of the environment and the prevention of pollution.

Compliance with all local, national and international legislation and codes of practice is a statutory requirement and we will adopt best available techniques in minimising the environmental impacts of our activities by cost effective and practicable methods.

We will minimise waste through recycling wherever practicable and ensure the safe disposal of waste where reuse or recycling is not economically viable.

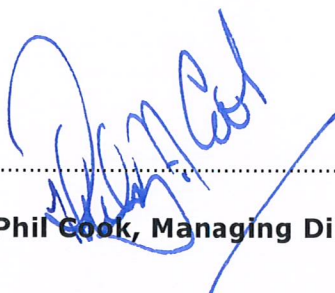

Energy and material minimization programmes will be promoted and implemented wherever practicable.

To ensure that all employees are able to fulfil the commitments described in this policy and to raise environmental awareness, appropriate resources and the necessary training will be provided.

Active and responsible participation in the achievement of this policy is encouraged.

This Policy and the processes and procedures contained within Euroclad's Environmental Management System will undergo regular review and audit. This shall ensure that the system remains effective and will allow continuous improvement where identified.

This environmental policy will be made available to all interested parties.
